October 15, 2020

The Lewisburg Area School District recently received notice of our Seamless Summer Option waiver application being approved by the Pennsylvania Department of Education (Department of Food and Nutrition). As a result of receiving these federally supported funds, we are now able to offer breakfast and lunch to all of our students free of charge through the end of June 2021, thanks to a US Department of Agriculture waiver extension to the end of the school year.

All families who purchased breakfast and / or lunch since **October 1, 2020** will have those associated costs credited back into their child's meal account.

PLEASE NOTE THE FOLLOWING:

- **A La Carte purchases, such as snacks or extra items, are not included in the free meal waiver.**
- A La Carte purchases must be paid for by cash or money in the student's account, as has always been the case.
- There is no paperwork for parents to fill out to be able to have your child start receiving meals free of charge.
- **If your student owes money for purchases made before October 1, 2020, or for any other ala carte purchases, this money is still owed to the District and should be paid promptly.**

The school district would like to thank the Food Service Department for securing this funding for our community.
